ARCO RESOURCES CORP.

Notes to the consolidated financial statements

Expressed in Canadian dollars

Six months ended October 31, 2017

1. Nature and Continuance of Operations

Arco Resources Corp. (the "Company") was incorporated as Atomic Minerals Ltd. on March 13, 2006 under the Business Corporations Act (British Columbia) and changed its name to Arco Resources Corp. in May, 2009. The Company engages in the acquisition, exploration and development of mineral properties. The Company is in the exploration stage and has not yet determined whether any of its properties contain economically recoverable ore reserves. The head office and principal address of the Company is Box 10077 - Pacific Centre, Vancouver, BC V7Y 1B6.

These consolidated financial statements have been prepared on a going concern basis which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. The continuing operations of the Company are dependent upon its ability to raise adequate financing to develop its business and commence profitable operations in the future. These consolidated financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern. These condensed interim consolidated financial statements were authorized for issue on December 30, 2017 by the Board of Directors of the Company.

2. Basis of Presentation

a) Statement of compliance

These consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC") effective as of October 31, 2017.

b) Basis of presentation

The financial statements have been prepared using the same accounting policies and methods as those used in the financial statements for the year ended April 30, 2017, except for the impact of the adoption of the accounting standard described below. These condensed interim consolidated financial statements have been prepared on a historical cost basis, except for financial instruments classified at fair value through profit and loss, which are stated at their fair value and are presented in Canadian dollars, which is also the Company's functional currency, unless otherwise indicated. In addition, these financial statements have been prepared using the accrual basis of accounting except for cash flow information.

These condensed interim consolidated financial statements should be read in conjunction with the Company's audited financial statements for the year ended April 30, 2017.

c) Going concern of operations

The Company has not generated revenue from operations. The Company had a loss of \$28,948 (2016 – \$61,205) during the six months ended October 31, 2017 and, as of that date the Company's deficit was \$15,719,440 (April 30, 2017 - \$15,690,492). The Company is dependent on its ability to place additional debt or equity to raise sufficient cash resources to meet its current financial obligations. As the Company is in the exploration stage, the recoverability of the costs incurred to date on exploration properties is dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain the necessary financing to complete the exploration and development of its properties and upon future profitable production or proceeds from the disposition of the properties and deferred exploration expenditures. The Company will periodically have to raise funds to continue operations and, although it has been successful in doing so in the past, there is no assurance it will be able to do so in the future. The Company had cash of \$44 at October 31, 2017 (April 30, 2017 - \$139), which is insufficient to finance operations for the coming year.

d) Principles of consolidation

These condensed interim consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries:

Entity	Jurisdiction	Status
0754257 BC Ltd.	British Columbia, Canada	Inactive
CHM Ventures Inc.	Colorado, USA	Inactive
CHM Ventures, LLC	Colorado, USA	Inactive

On consolidation, all significant intercompany transactions have been eliminated.

Although the Company does not expect that it will have to perform significant reclamation activities, it has recorded a provision for reclamation costs based on management's best estimates of the cost for the associated reclamation work. This bond represents the Company's best estimate of the fair value of reclamation costs associated with the Company's properties. This US\$38,744 deposit will be refunded once the Division of Mining is satisfied that the Company has performed all necessary decommissioning activities.

The related refundable deposit of US\$38,744 was written off in prior years.
