

GRAVIS ENERGY CORP.
MANAGEMENT'S DISCUSSION & ANALYSIS

For the year ended March 31, 2015

Overview

This Management's Discussion and Analysis ("MD&A") of Gravis Energy Corp. (the "Company") has been prepared by management as of July 24, 2015 and should be read in conjunction with the audited consolidated financial statements for the year ended March 31, 2015 and related notes, which are prepared in accordance with International Financial Reporting Standards ("IFRS"). All amounts are expressed in Canadian dollars unless otherwise stated.

This MD&A may contain "forward-looking statements" which reflect the Company's current expectations regarding the future results of operations, performance and achievements of the Company. The Company has tried, wherever possible, to identify these forward-looking statements by, among other things, using words such as "anticipate," "believe," "estimate," "expect" and similar expressions. The statements reflect the current beliefs of the management of the Company, and are based on currently available information. Accordingly, these statements are subject to known and unknown risks, uncertainties and other factors, which could cause the actual results, performance, or achievements of the Company to differ materially from those expressed in, or implied by, these statements.

The Company undertakes no obligation to publicly update or review the forward-looking statements whether as a result of new information, future events or otherwise. Historical results of operations and trends that may be inferred from the following discussions and analysis may not necessarily indicate future results from operations.

Overall Performance

The Company was originally listed as a Capital Pool Company ("CPC") on the TSX Venture Exchange ("TSX-V"). It completed its initial public offering (the "IPO") on March 12, 2008. The Company's shares were listed for trading on the TSX-V on March 13, 2008.

On May 28, 2009, the Company entered into a Share Exchange Agreement (the "Agreement") with Gravis Capital Corp. ("GCC") and its shareholders to acquire 100% of the issued and outstanding shares of GCC. GCC was incorporated on October 10, 2007 under the Business Corporations Act (British Columbia) and is engaged in a mineral exploration project through a limited partnership. Effective April 14, 2010, the acquisition of GCC was completed through the issuance of 10,404,025 common shares of the Company to the shareholders of GCC.

Prior to the acquisition of GCC, the Company was a non-operating Capital Pool Company. The acquisition is a capital transaction in substance and therefore has been accounted for as a recapitalization of the business of GCC. Under recapitalization accounting, GCC is considered the acquirer for accounting and financial reporting purposes, and acquired the assets and assumed the liabilities of the Company. Assets, net of liabilities, acquired of \$61,249 are reported at their carrying amounts. These financial statements include the accounts of the Company since the effective date of the recapitalization being April 14, 2010, and the historical accounts of the business of GCC since inception being October 10, 2007.

The Company has a 10% interest in the KEPCO Consortium otherwise known as Korea Waterbury Uranium Limited Partnership ("KWULP") which includes Korea Hydro & Nuclear Power Co. Ltd., Korea Nuclear Fuel Co. Ltd., Hanwha Corporation and Korea Electric Power Corporation. KWULP has the exclusive right to earn up to a 50% interest in the Waterbury Lake Uranium Property (the "Property") located in the province of Saskatchewan from Fission Energy Ltd. (TSXV: FIS) ("Fission").

As a result of closing the Acquisition, the Company is engaged, through its subsidiary GCC, in the business of exploring for, with the ultimate goal of developing and producing uranium oxide from the Property. In addition, the Company may explore and develop such other properties and interests as may be subsequently acquired by the Company.

GRAVIS ENERGY CORP.
MANAGEMENT'S DISCUSSION & ANALYSIS

For the year ended March 31, 2015

On September 15, 2010, KEPCO Consortium signed an MOU outlining the mutually agreed terms for continuing the Partnership with Fission Energy Corp. The Partnership is to be formed with Fission and the KEPCO Consortium each holding a 50% interest in the Waterbury Lake Project. The Work Plan and Budget shall cover a term of six years and incur expenditures of C\$10 million per year for a total of C\$30 million. The Company has been holding 10% interest in the KEPCO Consortium since 2008.

In August 2010, KWULP and Fission Energy Corp. entered into a definitive Limited Partnership Agreement ("WLULP") to further the joint exploration and development of the Waterbury Lake Uranium Property located in Saskatchewan's Athabasca Basin. Each party is responsible for expenditures in accordance with its interest in the partnership and any profits will be distributed to the parties on the same basis.

On April 11, 2011, Fission, a limited partner of KWULP, exercised the Back-In Option available under the terms of the WLULP which allowed Fission to buy back 10% interest from KWULP. Consequently, KWULP received \$6,000,000 for the Back-in Option from Fission, and the Company received \$600,000. As a result of the exercise of the Back-In Option, Fission's interest in WLULP was increased by 10% and KWULP's interest was reduced by 10%. KWULP now holds a 40% interest and Fission now holds 60% in WLULP.

On December 8, 2011, the Company and its limited partners announced that a \$7.3 million winter exploration program, including 25,000m of drilling with three drills, at its flagship 40,256 ha Waterbury Lake uranium project, located in the eastern part of the Athabasca Basin, will commence in early January 2012.

On December 14, 2011, the Company and its limited partners announced that assays have been received from the 49 radioactive boulders discovered during the trenching program carried out during October 2011. The highest grade samples included 31.4% U₃O₈ and 31.2% U₃O₈.

On January 16, 2013, a Binding Letter of Intent was announced whereby Denison Mines Corp. by way of an arrangement would acquire certain assets of Fission Energy Corp. including Fission's 60% interest in the Waterbury Lake uranium project in the Athabaska Basin. The arrangement received final approval of the British Columbia Supreme Court and TSX Venture Exchange on April 25, 2013.

MANAGEMENT'S DISCUSSION & ANALYSIS

For the year ended March 31, 2015

Financial Instruments

(a) Fair values

Assets and liabilities measured at fair value on a recurring basis were presented on the Company's consolidated statement of financial position as of March 31, 2015 as follows:

	Fair Value Measurements Using			Balance as at March 31, 2015 \$
	Quoted prices in active markets for identical instruments (Level 1) \$	Significant other observable inputs (Level 2) \$	Significant unobservable inputs (Level 3) \$	
Assets:				
Cash	736	–	–	736
Investment in KWULP	–	–	1,964,527	1,964,527
Investment in KWUC	–	–	1,000	1,000
Total assets measured at fair value	736	–	1,965,527	1,966,263

The fair values of other financial instruments, which include amounts receivable, accounts payable and accrued liabilities, loans payable, and amount due to related parties, approximate their carrying values to the relatively short-term maturity of these instruments.

(b) Credit risk

Financial instruments that potentially subject the Company to a concentration of credit risk consist primarily of cash and amounts receivable. The Company limits its exposure to credit loss by placing its cash with high credit quality financial institutions. Deposits held with these institutions may exceed the amount of insurance provided on such deposits. Amounts receivable consists of GST receivable due from the Government of Canada. The carrying amount of financial assets represents the maximum credit exposure.

(c) Foreign exchange risk

The Company is not exposed to any significant foreign exchange risk.

(d) Interest rate risk

The Company is not exposed to any significant interest rate risk.

(e) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company currently settles its financial obligations out of cash. The ability to do this relies on the Company raising equity financing in a timely manner and by maintaining sufficient cash in excess of anticipated needs.
