With legalization of the recreational market, expected to occur next summer, we are encouraged by the vision and challenging work done by the North Road team to further our application."

### **The Ideal Compliance Partner for North Road Ventures.**

Canada is the only G7 country to legalize medicinal cannabis and to bring forward legislation to legalize recreationally on a national level. To facilitate this, Canada has established the most stringent requirements for commercial production anywhere. Achieving compliance means following strict protocols regarding security system designs and procedures, quality assurance programs, record keeping, sanitation and standard operating procedures.

With over a decade of extensive experience in cannabis compliance matters, Cannabis Compliance Inc. is the ideal partner for shepherding North Road's abridgment to its ACMPR application.

"Achieving a licence requires a broad set of expertise," said Brian Wagner, CEO of Cannabis Compliance Inc. "Since 2013, our experienced team has lived and breathed commercial cannabis operations in Canada, advising on everything from genetics sourcing, cultivation, security and facility design, to quality assurance, regulatory licensing and business planning."

"We are delighted to be working so closely with the experts at Cannabis Compliance Inc.," Rascan said. "We expect that together we will achieve our business goals."
