**1. NATURE AND CONTINUANCE OF OPERATIONS**

The Company was incorporated as a numbered company under the laws of the Province of British Columbia on January 12, 2014. Pursuant to a plan of arrangement (the "Arrangement") dated January 14, 2014, between the Company and Vinergy Resources Ltd. ("Vinergy"), the Company acquired from Vinergy a business interest and \$5,000 in cash as part of the Arrangement.

As consideration for the business interest and the cash, the Company issued to Vinergy 2,633,334 common shares in its capital, which shares were distributed by Vinergy to its shareholders. Vinergy completed the share distribution on June 18, 2014.

With the completion of the share distribution, on June 18, 2014, the Company became a reporting issuer in British Columbia, Alberta and Ontario and changed its name on August 1, 2014, to SPT Sulphur Polymer Technologies Inc. On December 17, 2014 the Company was listed and began trading on the Canadian Securities Exchange ("CSE") under the symbol "SEE".

In July, 2015, the Company entered into an agreement to acquire a 90 interest in a Polish private company that had developed a process to isolate omega-3 fatty acids from flax seeds. The acquisition constituted a change of business for the Company for which final approval was received from the CSE on December 2, 2015 and the transaction was formally completed on February 18, 2016. In connection with the change of business, on December 3, 2015 the Company changed its name to LeenLife Pharma International Inc. and commenced trading on the CSE under the symbol "LLP".

The head office and registered and records office for the Company is located at Suite 380 – 680 Hornby Street, Vancouver, British Columbia, V6C 3B6,

Any business the Company proposes to undertake may take some time to achieve profitable operation and the amount of resulting income, if any, is difficult to determine with any certainty. As a development stage company, at March 31, 2016, the Company had not yet achieved profitable operations and has accumulated losses of \$4,041,841 (2015 - \$308,580) since its inception and expects to incur further losses in the development of its business, all of which casts significant doubt about the Company's ability to continue as a going concern.

These financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") on the basis of accounting principles applicable to a going concern, which presumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business in the foreseeable future. At March 31, 2016, the Company had a working capital deficiency of \$439,237. The Company's ability to continue as a going concern and realize the carrying value of its assets is dependent on its ability to raise capital through equity financing, or upon the generation of profits from its portfolio of bio-pharmaceutical assets, the outcome of which cannot be predicted at this time. These matters indicate the existence of a material uncertainty and may cast significant doubt about the Company's ability to continue as a going concern. These financial statements do not include any adjustments to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

**7. SULSTAR LICENCE**

**Sulstar Licence**

On July 17<sup>th</sup>, 2014 the Company acquired a license from Sulstar Technologies Inc., a British Columbia corporation, for a patented technology for converting waste sulphur into unique granulated thermoplastic asphalt binder and a modified sulphur polymer concrete marketed under the names of Sulstar and Sulconcrete, respectively, for the provinces of British Columbia, Alberta, Saskatchewan and the Yukon Territory, in consideration of \$25,000 cash (paid) and a 2% royalty on all sales. The license has a five year term (expires on August 14, 2019) and is renewable based on performance.

During the year ended March 31, 2015, the Company recorded impairment in the amount of \$25,000 as the Company had no immediate plans to conduct further business on this project.

**8. LEENLIFE ACQUISITION**

In July, 2015, the Company entered into a share purchase agreement to acquire a 90-per-cent interest in a Polish private company, LeenLife Pharma SA, which has developed a process to isolate omega-3 fatty acids from flax seeds. The purchase price is comprised of 12,232,788 common shares of the Company at a deemed issuance price of \$0.25 per share for an aggregate value of \$3,058,197 and \$563,044 in cash consideration due by January 31, 2016. \$122,541 was advanced to purchase flax seeds and other materials. Common shares totaling 366,984 and valued at \$91,746 were issued as compensation for finder's fees for this contract. The Share Purchase Agreement received final approval from the Canadian Securities Exchange (the "CSE") on December 2, 2015. In anticipation of closing the transaction, the Company changed its name to LeenLife Pharma International Inc. on December 3, 2015.

Several delays were encountered in closing a final document, which was finally completed on February 18, 2016. Subsequent to February 18, 2016, the Company had been waiting for key detailed information with which to advance the objectives of the Company, mainly on the ingredients, patents and follow up on production.

As of July 29, 2016, the 12,232,788 common shares are being held in escrow and none of the \$563,044 cash consideration has been advanced.

Management of LeenLife Pharma SA has been uncooperative and information has come to light that suggests that LeenLife Pharma SA does not hold an exclusive patent on the omega-3 processes as it had represented. The Company has made a decision to terminate the LeenLife Pharma S.A. relationship and has written off all investments costs. The Company has yet to begin the litigation process to dispute the contract and exit the relationship.

**10. Capital Disclosures**

The Company's objectives when managing capital is to safeguard its ability to continue as a going concern, so that it can provide returns for shareholders and benefits for other stakeholders. The Company considers the items included in shareholders' equity and cash as capital. The Company manages the capital structure and makes adjustments to it in response to changes in economic conditions and the risk characteristics of the underlying assets. The Company's primary objective with respect to its capital management is to ensure that it has sufficient cash resources to fund the development of the real estate development Business. To secure the additional capital necessary to pursue these plans, the Company intends to raise additional funds through the equity or debt financing. The Company is not subject to any capital requirements imposed by a regulator.

**LEENLIFE PHARMA INTERNATIONAL INC.**  
**NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS**  
**June 30, 2016**  
(Expressed in Canadian dollars)

**11. FINANCIAL INSTRUMENTS**

The Company's financial instruments consist of cash, investment in securities, short term loan, due from(to) a related party, accounts payable and accrued liabilities and property option payable. Cash is stated at fair value and classified within Level 1 of the fair value hierarchy. The fair values of accrued liabilities approximate their carrying values due to their short- term nature of these instruments.

The Company's risk exposures and the impact on the Company's financial instruments are summarized below:

Strategic and operational risks are risks that arise if the Company fails to develop the real estate development Business. These strategic opportunities or threats arise from a range of factors which might include changing economic and political circumstances and regulatory approvals and competitor actions. The risk is mitigated by consideration of other potential development opportunities and challenges which management may undertake.

The Company's credit risk was primarily attributable to bank balances and subscriptions receivable. The Company limits its credit exposure on cash held in bank accounts firstly by holding its key transactional bank accounts with banks of international financial institutions. Subscriptions receivable is due from the parent company and management believes that the credit risk to be minimal.

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities. The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. As at March 31, 2016, the Company had a cash balance of \$175 (2015 - \$70,890 and current liabilities of \$553,300 (2015 - \$32,770). All of the Company's financial liabilities have contractual maturities of less than 30 days, and are subject to normal trade terms. Management is considering different alternatives to secure adequate debt or equity financing to meet the Company short-term and long-term cash requirements.

Interest risk is the risk that the fair value or future cash flows will fluctuate as a result of changes in market risk. The Company's sensitivity to interest rates is currently immaterial.

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company holds no financial instruments that are denominated in a currency other than Canadian dollar. Accrued liabilities are denominated in Canadian currency. Therefore, the Company's exposure to currency risk is minimal.
