LIGHTNING UPDATES THE MARKET ON RECENT BUSINESS DEVELOPMENTS

VANCOUVER, CANADA--(Marketwired – June 20, 2016) – Lightning Ventures Inc. (CSE:LVI) (OTCBB:HMKTF) (Frankfurt: 1HM) ("**Lightning**" or the "**Company**") is pleased to announce that it has initiated two pilot installations in Mexico for Nuvoil and Pemex. The pilot installations mark the entrance into the Mexican market with two large and well established customers in the region.

The pilot installations are for 5 Auto Loader EX-25 soap stick dispensers, a product designed to improve ease of installation, safety and reporting for soap stick dispenser, as well as the general efficiency of wells. Auto Loaders increase and sustain the flow of gas by managing the pressure from fluid build-up by releasing surfactants into a well at timed or specifically designed intervals based on the unique features of a well. The Company has successfully installed Auto Loaders with many other Lightning customers in the US and is pleased to begin business within the Mexican market. The pilot installation Auto Loaders are currently in the final production and shipping stages.

If Pemex and Nuvoil are satisfied with the performance of the pilot installations, Lightning will supply Pemex and Nuvoil additional units over a three year period. The long term supply to these new partners would serve as a significant source of revenue to the Company.

About Nuvoil

Nuvoil is a group of Mexican companies specialized in various segments of the energy industry. Nuvoil has been a prominent name in the Mexican and international oil industry for 18 years. For more information please visit Nuvoil's website: us.nuvoil.com.

About Pemex

Petróleos Mexicanos (Pemex) is the Mexican state-owned petroleum company, and the largest company in Mexico. It operates through the whole chain of value of the industry, from upstream exploration and production to downstream industrial transformation, logistics and marketing. Pemex has operations geographically dispersed throughout Mexico with presence in almost every state. For more information please visit Pemex's website: **Error!
