RENFORTH RESOURCES INC.

Notes to Condensed Interim Financial Statements

March 31, 2016

(Expressed in Canadian dollars)

1. NATURE OF BUSINESS AND GOING CONCERN

Nature of business

Renforth Resources Inc. (the "Company" or "Renforth"), was incorporated in Canada under the Business Corporations Act (Ontario) and carries on business in one segment, being the acquisition, exploration and development of mineral properties in Canada. The Company's registered and head office is located at 65 Front Street East, Suite 304, Toronto, Ontario M5E 1B5.

These financial statements were approved by the board on May 30, 2016.

The business of mining and exploring for minerals involves a high degree of risk and there can be no assurance that current exploration programs will result in profitable mining operations. The recoverability of the carrying value of exploration and evaluation assets and the Company's continued existence is dependent upon the preservation of its interest in the underlying properties, the discovery of economically recoverable reserves, the achievement of profitable operations, or the ability of the Company to raise additional financing, if necessary, or alternatively upon the Company's ability to dispose of its interests on an advantageous basis. The amounts shown as exploration and evaluation assets do not necessarily represent present or future values. Changes in future conditions could require material write-downs to the carrying values of the Company's assets.

Although the Company has taken steps to verify title to the properties on which it is conducting exploration and in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to government licensing requirements or regulations, First Nations claims, unregistered prior agreements, social licensing requirements, unregistered claims, and non-compliance with regulatory and environmental requirements. The Company may also be subject to increases in taxes and royalties, renegotiation of contracts and political uncertainties. The Company is currently negotiating terms of its option agreements regarding the New Alger Gold Project and Nixon Bartleman Property.

Going concern assumption

These financial statements are prepared in accordance with International Financial Reporting Standards with the assumption that the Company will be able to realize its assets and discharge its liabilities in the normal course of operations in the foreseeable future.

The recoverability of the costs incurred to date on exploration and evaluation assets is dependent upon the existence of economically recoverable reserves, maintaining title and beneficial interest in the properties, the ability of the Company to obtain the necessary financing to complete the exploration and development of its properties and upon future profitable production or proceeds from the disposition of the properties and deferred exploration expenditures. The Company will periodically have to raise funds to continue operations and, although it has been successful in doing so in the past, there is no assurance it will be able to do so in the future.

These financial statements do not reflect the adjustments to the carrying values of assets and liabilities that would be necessary if the Company were unable to obtain adequate financing. Changes in future conditions could require material write-downs to the carrying value of the exploration and evaluation assets. Such adjustments could be material. Management is aware, in making its assessment of material uncertainties related to events or conditions that cast significant doubt upon the entity's ability to continue as a going concern. The Company has incurred a net loss of \$34,299 for the three months ended March 31, 2016 (three months ended March 31, 2015 - \$47,466) and has an accumulated deficit of \$11,725,496 (2015 - \$11,691,197) and a working capital deficiency of \$170,506 (2015-\$87,124).

2. BASIS OF PRESENTATION AND STATEMENT OF COMPLIANCE

Statement of compliance

These condensed interim financial statements have been prepared in accordance and compliance with International Financial Reporting Standards ("IFRS") applicable to the preparation of interim financial statements, including IAS 34, Interim Financial Reporting. The interim condensed financial statements do not include all the information and disclosures required in the Company's annual financial statements and should be read in conjunction with the Company's annual financial statements for the year ended December 31, 2015.

Basis of presentation

The financial statements of the Company have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB").

These financial statements have been prepared on a historical cost basis except for certain financial instruments that have been measured at fair value. In addition these financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

These financial statements, including comparatives, have been prepared on the basis of IFRS standards that are published at the time of preparation and that are effective for the Company's reporting date.

Functional currency

The presentation currency of the Company and the functional currency of the Company is the Canadian dollar.

Critical judgments and estimation uncertainties

The preparation of financial statements in conformity with IFRS requires the Company's management to make judgments, estimates and assumptions about future events that affect the amounts reported in the financial statements and related notes to the financial statements. Although these estimates are based on management's best knowledge of the amount, event or actions, actual results may differ from those estimates and these differences could be material.

The areas which require management to make significant judgments, estimates and assumptions in determining carrying values include, but are not limited to:

- **Assets' carrying values and impairment charges**

In the determination of carrying values and impairment charges, management looks at the higher of recoverable amount or fair value less costs to sell in the case of assets and at objective evidence, significant or prolonged decline of fair value on financial assets indicating impairment. These determinations and their individual assumptions require that management make a decision based on the best available information at each reporting period.

- **Capitalization of exploration and evaluation costs**

Management has determined that exploration and evaluation costs incurred during the year have future economic benefits and are economically recoverable. In making this judgement, management has assessed various sources of information including but not limited to the geologic and metallurgic information, history of conversion of mineral deposits to proven and probable mineral reserves, scoping and feasibility studies, proximity of operating facilities, operating management expertise and existing permits. See Note 6 for details of capitalized exploration and evaluation costs.

RENFORTH RESOURCES INC.

Notes to Condensed Interim Financial Statements

March 31, 2016

(Expressed in Canadian dollars)

2. BASIS OF PRESENTATION AND STATEMENT OF COMPLIANCE (continued)

- Impairment of exploration and evaluation assets

While assessing whether any indications of impairment exist for exploration and evaluation assets, consideration is given to both external and internal sources of information. Information the Company considers includes changes in the market, economic and legal environment in which the Company operates that are not within its control that could affect the recoverable amount of exploration and evaluation assets. Internal sources of information include the manner in which exploration and evaluation assets are being used or are expected to be used and indications of expected economic performance of the assets. Estimates include but are not limited to estimates of the discounted future cash flows expected to be derived from the Company's properties, costs to sell the properties and the appropriate discount rate.

Reductions in metal price forecasts, increases in estimated future costs of production, increases in estimated future capital costs, reductions in the amount of recoverable mineral reserves and mineral resources and/or adverse current economics can result in a write-down of the carrying amounts of the Company's exploration and evaluation assets.

- Income, value added, withholding and other taxes

The Company is subject to income, value added, withholding and other taxes. Significant judgment is required in determining the Company's provisions for taxes. There are many transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. The Company recognizes liabilities for anticipated tax audit issues based on estimates of whether additional taxes will be due. The determination of the Company's income, value added, withholding and other tax liabilities requires interpretation of complex laws and regulations. The Company's interpretation of taxation law as applied to transactions and activities may not coincide with the interpretation of the tax authorities. All tax related filings are subject to government audit and potential reassessment subsequent to the financial statement reporting period. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the tax related accruals and deferred income tax provisions in the period in which such determination is made.

- Share-based payments

Management determines costs for share-based payments using market-based valuation techniques. The fair value of the market-based and performance-based share awards are determined at the date of grant using generally accepted valuation techniques. Assumptions are made and judgment used in applying valuation techniques. These assumptions and judgments include estimating the future volatility of the stock price, expected dividend yield, future employee turnover rates and future employee stock option exercise behaviors and corporate performance. Such judgments and assumptions are inherently uncertain. Changes in these assumptions affect the fair value estimates.

- Contingences (note 11)

RENFORTH RESOURCES INC.

3. SIGNIFICANT ACCOUNTING POLICIES

The accounting policies applied in the preparation of the interim consolidated financial statements are consistent with those followed in the preparation of the Company's December 31, 2015 annual financial statements, except for the adoption of new standards and interpretations as of January 1, 2016.

Recently-Adopted Accounting Pronouncements and Recent accounting pronouncements

Certain pronouncements were issued by the IASB or the IFRIC that are mandatory for accounting periods on or after January 1, 2016 or later periods. Many are not applicable or do not have a significant impact to the Company and have been excluded. The following have not yet been adopted and are being evaluated to determine their impact on the Company.

IFRS 9, Financial Instruments ("IFRS 9") was updated and re-issued by the IASB on July 24, 2014 and will replace IAS 39, "Financial Instruments: Recognition and Measurement" ("IAS 39"). IFRS 9 replaces the multiple rules in IAS 39 with a single approach to determine whether a financial asset is measured at amortized cost or fair value and a new mixed measurement model for debt instruments having only two categories: amortized cost and fair value. The approach in IFRS 9 is based on how an entity manages its financial instruments in the context of its business model and the contractual cash flow characteristics of the financial assets. The new standard also requires a single impairment method to be used, replacing the multiple impairment methods in IAS 39. IFRS 9 is effective for annual periods beginning on or after January 1, 2018. Earlier adoption is permitted.

4. CAPITAL MANAGEMENT

The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support the acquisition, exploration and development of mineral properties. The capital of the Company consists of share capital, warrants, contributed surplus and options. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business.

The properties in which the Company currently has an interest are in the exploration and evaluation stage; as such the Company is dependent on external financing to fund its activities. In order to carry out the planned exploration and pay for administrative costs, the Company will spend its existing working capital and raise additional amounts as needed. The Company will continue to assess new properties and seek to acquire an interest in additional properties if it feels there is sufficient geologic or economic potential and if it has adequate financial resources to do so.

4. CAPITAL MANAGEMENT (continued)

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. The Company's capital management objectives, policies and processes have remained unchanged during the three months ended March 31, 2016.

The Company is not subject to any externally imposed capital requirements.

New Alger Gold Project

On January 28, 2013, Renforth entered into an agreement (the "Purchase Agreement") with Cadillac Ventures Inc. ("Cadillac") to acquire a 100% interest in Cadillac's New Alger Property, located in Cadillac Township, Québec. The Purchase Agreement supersedes previous agreements.

RENFORTH RESOURCES INC.

Notes to Condensed Interim Financial Statements

March 31, 2016

(Expressed in Canadian dollars)

6. EXPLORATION AND EVALUATION ASSETS (continued)

The Purchase Agreement provides for the payment to Cadillac of the following: (i) \$20,000 cash and 2,000,000 common shares of Renforth at the time of signing the agreement (paid and common shares issued), (ii) \$210,000 cash by June 15, 2013 and (iii) \$250,000 cash by November 15, 2013. Upon satisfaction of the foregoing conditions, Renforth will acquire a 100% interest in the property, subject to an existing 1% net smelter return royalty ("NSR") and Cadillac will retain an additional 1% NSR.

On September 30, 2013, Renforth and Cadillac signed an agreement whereby Cadillac agreed to accept common shares in lieu of the June 15, 2013 cash payment at an agreed price of \$0.05. On October 24, 2013, Renforth issued 4,200,000 common shares to Cadillac, valued at \$168,000 based on the fair value of common shares at the date of issuance.

On February 1, 2014, Renforth and Cadillac agreed to settle the final payment through quarterly instalments of \$15,000 (commencing February 2014), with the balance of \$190,000 payable February 2015. In consideration for the restructuring of the payment, Renforth agreed to pay an additional fee of \$10,000 payable February 2015. On December 2, 2014, Renforth and Cadillac made an amendment to the February 1, 2014 agreement whereby Renforth will continue to make quarterly instalments of \$15,000, with the balance payable November 2015. On May 20, 2015, a further amendment was made whereby Renforth will continue to make quarterly payments of \$15,000 which will apply against the balance due. The first payment was due on signing the amendment, followed by quarterly payments due: August 1, November 1, February 1, and the balance due May 2016. As at December 31, 2015, \$110,000 (2014 - \$185,000) is payable to Cadillac and is included in accounts payable and accrued liabilities.

On February 18, 2014, the Company acquired the option to acquire certain properties on the western boundary of Renforth's New Alger project.

The acquisition is subject to several terms and conditions, including the following:

- 1- Renforth shall issue to the vendor 200,000 common shares of Renforth (issued February 14, 2014);
- 2- Upon or before the date which is 12 months from the signing of the agreement Renforth shall carry out \$20,000¹ in exploratory work on the property, issue to the vendor 100,000 (issued February 18, 2015) Renforth common shares and pay the vendor \$10,000 (paid February 24, 2015), to acquire a 25% interest in the property;
- 3- Upon or before the date which is 24 months from the signing of the agreement Renforth shall carry out \$30,000¹ in work on the Property, issue to the vendor 250,000 Renforth common shares and pay the vendor \$15,000¹, to earn an additional 30% interest in the Property;
- 4- Upon or before the date which is 36 months from the signing of the agreement Renforth shall carry out \$50,000 in work on the Property, issue to the vendor 250,000 common shares of Renforth and pay the vendor \$25,000 in cash, to earn Renforth the final 45% interest in the Property.

⁽¹⁾ The Company has not met the work requirements and cash payments to date. The vendor has agreed to extend the cash payment and work requirements to a future date.

On August 4, 2015, the Company acquired 50 claims adjacent to the New Alger project (the "Bonchamp Claims"). In consideration for these claims, the Company issued 4,000,000 common shares valued at \$0.05 per share based on the quoted market price on the date of issuance.

During the year ended December 31, 2015, the Company recovered \$93,131 (2014 - \$118,698) from Revenu Quebec for the fiscal year ended December 31, 2014. These refundable mining tax credits were recorded as a reduction to exploration and evaluation assets. The Company also accrued another \$38,205 for credits related to 2015 expenditures. No credits were received during the three months ended March 31, 2016 or 2015.

6. EXPLORATION AND EVALUATION ASSETS (continued)

Nixon Bartleman Property

On August 4, 2014, Renforth entered into an option agreement to earn a 55% interest in the Nixon-Bartleman Property located in the West Timmins Mining Area, in the western part of the Porcupine Mining Camp.

In order to earn a 55% interest in the property, Renforth had to incur \$25,000 in exploration spending on the property during August 2014 (completed), within 12 months spend an additional \$125,000 on the property and issue 1,000,000 shares to the vendor (issued on February 18, 2015), and within 24 months spend an additional \$150,000 on the property and issue 1,250,000 shares to the vendor. The property is subject to a 2% NSR.

Parbec Gold Project

On January 29, 2015, the Company entered into a letter of intent to acquire 100% of the Parbec Gold Property ("Parbec") from Globex Mining Enterprises Inc. ("Globex") under the following terms.

- 1) over 4 years make cash payments totaling \$550,000 (\$25,000 within 6 months of signing (paid), \$50,000 within 12 months (paid), \$25,000 within 18 months, \$125,000 within 24 months, \$125,000 within 36 months, and \$200,000 within 48 months);
- 2)
- 3) over 4 years incur \$4,000,000 in work costs on the property (\$350,000 in year one, \$500,000 by the end of year 2, \$1,150,000 by the end of year three, and \$2,000,000 by the end of year four);
- 4) over 4 years issue a total of 2,000,000 shares to Globex (250,000 on signing (issued), 500,000 before the end of year one (issued), 500,000 before the end of year two, 500,000 before the end of year three, 250,000 before the end of year four shares issued).
- 5) Globex retains a gross metal royalty on the property of between 1% and 2% (percentage calculated in relationship to the prevailing price of gold at the time of delivery).

In 2015, the Company accrued \$25,537 (2014 - \$nil) of refundable mining tax credits from Revenu Quebec for the fiscal year ended December 31, 2015. These refundable mining tax credits were recorded as a reduction to exploration and evaluation assets. Nothing was accrued for the three months ended March 31, 2016.

Malartic West

On November 6, 2015, the Company acquired 100% of the Malartic West Property. The Malartic West Property, acquired from Knick Exploration for total consideration of 4,000,000 shares of Renforth, is located west of Renforth's Parbec Property, contiguous to the Canadian Malartic Mine property. The property is subject to a 2% NSR and a 2% Gross Overriding Receipts royalty on all diamonds extracted. There is a right to buy back one per cent of the royalty for \$1,000,000.

On November 27, 2015, the Company acquired additional claims adjacent to, and also named, the Malartic West Property for total consideration of 2,000,000 shares of Renforth and 2,000,000 common share purchase warrants exercisable for a period of 2 years at a price of \$0.05.

10. FINANCIAL RISK FACTORS

The Company's risk exposures and the impact on the Company's financial instruments are summarized below. There have been no significant changes in the risks, objectives, policies and procedures during the three months ended March 31, 2016 and 2015.

Credit risk

The Company's credit risk is primarily attributable to cash and cash equivalents. The Company has no significant concentration of credit risk arising from operations. Cash is held with reputable financial institutions, from which management believes the risk of loss to be remote. Management believes that the credit risk concentration with respect to these items is remote.

Liquidity risk

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. As at March 31, 2016, the Company had a cash and cash equivalent balance of \$7,198 (2015 – \$59,338) to settle current liabilities of \$259,070 (2015 - \$222,737).

Market risk

(a) Interest rate risk

The Company has cash balances and no long term debt. The Company's current policy is to invest excess cash in investment-grade short-term deposit certificates issued by its banking institutions. The Company periodically monitors the investments it makes and is satisfied with the credit ratings of its banks.

(b) Foreign exchange risk

The Company's functional currency is the Canadian dollar and all major purchases are transacted in Canadian dollars. Management believes the foreign exchange risk is negligible and therefore does not hedge its foreign exchange risk.

The Company does not hold balances in foreign currencies to give rise to exposure to foreign exchange risk.

(c) Price risk

The Company is exposed to price risk with respect to commodity prices. The Company closely monitors commodity prices to determine the appropriate course of action to be taken by the Company. Price risk is remote since the Company is not a producing entity.

Fair value of financial assets and liabilities

The Company has designated its cash and cash equivalents as loans and receivables, which are measured at amortized cost. Accounts payable and accrued liabilities, classified as other financial liabilities, are measured at amortized cost.

As at March 31, 2016 and December 31, 2015, the fair values of Company's financial instruments approximate their carrying values, given their short-term nature.

11. COMMITMENTS AND CONTINGENCIES

- (a) See note 6 and 15 for additional commitments and contingencies on evaluation and exploration assets.
- (b) The Company renounced \$114,600 of qualifying exploration expenditures to the shareholders effective December 31, 2015. Under the “look back” provision governing flow-through shares, \$41,968 of this amount was unspent at December 31, 2015 and has to be spent by the end of 2016.
- (c) The Company renounced \$250,000 of qualifying exploration expenditures to the shareholders effective December 31, 2014. Under the “look back” provisions governing flow-through shares, \$74,000 of this amount had to be spent by the end of 2015. The Company spent the amount required.
- (d) The Company’s mining and exploration activities are subject to various laws and regulations governing the protection of the environment. These laws and regulations are continually changing and generally becoming more restrictive. The Company conducts its operations so as to protect public health and the environment and believes its operations are materially in compliance with all applicable laws and regulations. The Company has made, and expects to make in the future, expenditures to comply with such laws and regulations.
