THC BioMed Enters into First Service Agreement

THC.CSE

TFHC.F

Vancouver, B.C. – (May 13, 2015) THC BioMed Intl Ltd. (“**THC**”) is pleased to announce it has entered into a binding letter agreement (the “**Agreement**”) with Trans-Medica Ltd. (“**Trans-Medica**”), to provide consulting services and utilize Trans-Medica’s proprietary Vertical Grow System for total consideration to THC of \$500,000.

Pursuant to the Agreement, THC will immediately supply consulting services to Trans-Medica to assist Trans-Medica in obtaining its own Producer’s License under Canada’s *Marijuana for Medical Purposes Regulations* (the “**MMPR**”).

If THC acquires an MMPR Producer’s License, it will allocate a minimum of 25% of its growing facility to grow medical marijuana using the Vertical Grow Technology (“**Vertical Marijuana**”), sell and brand the Vertical Marijuana (the “**Brand**”) and supply it to Trans-Medica’s estimated 3,000 patients for a 3-year term.

Trans-Medica will pay to THC a total of \$500,000 (the “**Consideration**”) for the THC’s services under the Agreement, in three payments as follows:

- \$50,000 within 5 business days of signing the Agreement;
- \$200,000 on the earlier of 30 days of signing the Agreement or the date on which a longer form of agreement is signed between the parties; and
- \$250,000:
 - (i) if and when THC is legally able to take delivery of seedlings from Trans-Medica in order to commence growing the Vertical Marijuana; or
 - (ii) alternatively, at any time prior to THC receiving a Producer’s License by way of private placement sales of shares in the capital of THC to Trans-Medica at a price per share equal to the higher of (a) \$0.25 per common share or (b) the discount market price of THC’s common shares on the trading day that is two trading days prior to the date of issuance of such shares.

Also, pursuant to the Agreement, THC will allocate the Consideration as follows:

- \$50,000 for marketing and packing of the Brand;
- \$250,000 as advance payment for consulting services to be provided by THC to Trans-Medica; and

- \$200,000 for the option to purchase the Brand, which option (i) may be exercised by Trans-Medica by paying the Company an additional \$50,000, (ii) shall be valid for a period of three years, and (iii) shall only be exercised when Trans-Medica has received its Producer's License.

John Miller, President of THC BioMed Intl Ltd. states, "We are very optimistic, as we begin to integrate the different verticals this rapidly growing industry. We look forward to working with Trans-Medica and we are excited at the opportunity to work with their proprietary Vertical Grow System. Through the execution of well-designed experiments, THC's scientific team will conduct validation processes in ensuring a standardized and effective product. With our vision of becoming fully licensed under the MMPR, we look forward to registering and supplying Trans-Medica's estimated 3000 patients."

Trans-Medica is a private Ontario based company with extensive lateral relationships in all aspects of the burgeoning medical marijuana space, from growth and growing systems to clinicians and prescription.

THC's vision is to be on the leading edge of scientific research and development of products and services related to the medical cannabis industry while creating a standard of excellence. As the industry develops, it will become more important to focus on scientific research and development of products and services related to medical cannabis. Management believes THC is well-positioned to be in the forefront of this rapidly growing industry.
