

Tartisan Resources corp.
FORM 51-102F3
MATERIAL CHANGE REPORT

Item 1. Name and Address of Company

Tartisan Resources Corp.
44 Victoria Street, Suite 710
Toronto, Ontario
M5C 1Y2

Item 2. Date of Material Change

July 3, 2014 and June 5, 2015

Item 3. News Release

News Releases with respect to the material change referred to in this report was issued by the Corporation via Newsfile on July 3, 2014 and June 5, 2015 and filed on the System for Electronic Document Analysis and Retrieval (SEDAR) on July 3, 2014 and June 5, 2015 respectively. Copy of the press releases are attached.

Item 4. Summary of Material Change

Tartisan Resources Corp. (CSE: TTC) ("Tartisan", or the "Company") announced on July 3, 2014 it had signed a Definitive Option and Joint Venture Agreement (the "Definitive Agreement") with Eloro Resources Ltd. ("Eloro"; TSXV: ELO), granting Eloro an option to acquire a 50% interest in La Victoria property ("La Victoria" or the "Property"). The La Victoria Polymetallic Project, Ancash, Peru, is wholly-owned by Tartisan.

Tartisan Resources Corp. (CSE: TTC; "Tartisan") and Eloro Resources Ltd. (TSX-V: ELO; FSE: P2Q; "Eloro") announced on June 4, 2015 that they have amended the terms of the option and joint venture agreement (the "Agreement"), whereby Eloro has been granted the right to acquire an additional 10% in the option to now earn a 60% interest in the royalty-free La Victoria Polymetallic Project, Ancash, Peru, wholly-owned by Tartisan.

Item 5. Full Description of Material Change

**TARTISAN RESOURCES SIGNS DEFINITIVE AGREEMENT TO OPTION LA
VICTORIA POLYMETALLIC PROPERTY, ANCASH, PERÚ**

Toronto, Canada, July 3, 2014 – **Tartisan Resources Corp. (CSE: TTC)** (“Tartisan”, or the “Company”) is pleased to announce it has signed a Definitive Option and Joint Venture Agreement (the “Definitive Agreement”) with Eloro Resources Ltd. (“Eloro”; TSXV: ELO), granting Eloro an option to acquire a 50% interest in La Victoria property (“La Victoria” or the “Property”), consisting of nine (9) mineral concessions totalling 43.6 km², the details of which were previously announced by Tartisan on February 14, 2014. The Property is held by Tartisan’s Peruvian-based subsidiary, Minera Tartisan Perú S.A.C., and is located in Huandoval District, Pallasca Province, Ancash Department, in the North-Central Mineral Belt of Perú.

The Definitive Agreement

Under the terms of the Definitive Agreement, Tartisan has granted Eloro the right to earn a 50% interest in the Property, at Eloro’s option, by expending \$CDN 1.5 million in staged exploration and work expenditures on the Property and by making cash payments to Tartisan totalling \$CDN 150,000, all over a 4-year period. The Company has received the initial cash payment of \$CDN 50,000.

The Definitive Agreement is subject to any required approval from the Canadian Securities Exchange for the Company and the TSX Venture Exchange for Eloro.

La Victoria Property, Peru

La Victoria is Tartisan’s wholly owned royalty-free flagship project located in northern Ancash Department and comprises nine (9) claims totalling 4,360 ha in size. The Property has good infrastructure with access to road, water and electricity and is located at an altitude that ranges 3,100 m to 4,200 m above sea level.

La Victoria is located within 50 km of several producing mines including: La Arena owned by Rio Alto Mining Ltd. (TSXV:RIO), Lagunas Norte (Alto Chicama) owned by Barrick Gold Corporation (TSX:ABX) and Santa Rosa owned by Compañía Minera Aurífera Santa Rosa (COMARSA). Rio Alto has also recently struck a merger deal with Sulliden Gold Corp. Ltd.

(TSX:SUE) which should accelerate putting Sulliden's Shahuindo gold deposit, also in the vicinity, into production.

Tartisan has spent over \$US 800,000 to date on the Property in connection with exploration and infrastructure development. This exploration work includes: topographic, ground magnetic and Induced Polarization geophysical surveys; over 600 samples taken for geochemistry; construction of access roads; and, completion of a National Instrument 43-101-compliant Technical Report. The Property has numerous historical adits and surface workings.

The Technical Report concludes that La Victoria possesses excellent potential for finding high- grade oxide and sulphide epithermal Au-Ag vein systems and low-grade, large-tonnage, disseminated Cu-Au-Ag (porphyry-type) mineralization.

As Operator during Eloro's earn-in option period, the Company is undertaking the necessary steps to commence the planned exploration on the Property as recommended by a joint Exploration Committee comprised of technical representatives of Tartisan and Eloro.

Tartisan Resources Corp. common shares are listed on the Canadian Securities Exchange (CSE). Currently, there are 35,358,882 shares outstanding (40,421,739 fully diluted).

For further information, please contact Mr. D. Mark Appleby, CEO and a Director of the Company, at 416-804-0280 (mark@tartisanresources.com), Mr. John M. Siriunas, P.Eng., Director, at 416-710-9392 (john@tartisanresources.com) or Mr. Phillip Shum, Investor Relations (Ubika Corp.) at 647-352-0687 (phillip@ubikacorp.com). Eloro Resources Ltd. and Tartisan Resources Corp. amend Option Agreement to Increase Eloro's Earn-In to 60% of the La Victoria Polymetallic Project, Peru

Toronto, Canada, June 5, 2015 – Eloro Resources Ltd. (TSX-V: ELO; FSE: P2Q; “Eloro”) and Tartisan Resources Corp. (CSE:TTC; “Tartisan”) are pleased to announce that they have amended the terms of the option and joint venture agreement (the “Agreement”), whereby Eloro has been granted the right to acquire an additional 10% in the option to now earn a 60% interest in the royalty-free La Victoria Polymetallic Project, Ancash, Peru, wholly-owned by Tartisan.

The consideration for the additional 10% earn-in interest is the payment of CDN\$120,000 to Tartisan, payable in two instalments; CDN\$75,000 upon signing (paid) and CDN\$45,000 payable on or before September 1, 2015.

The Agreement now states that Eloro can earn a 60% interest in the La Victoria Polymetallic Project with CDN\$1,500,000 in exploration expenditures, including CDN\$250,000 by January 2016 and the remainder by January 2019, as well as the payment of CDN\$270,000 in cash, of which CDN\$175,000 has been paid to date.

Pursuant to the amended terms of the Agreement, Eloro has also now been designated Operator for the earn-in phase of the option period, as well as the joint venture phase, upon Eloro completing its earn-in obligations.

“This additional earn-in option interest underlies our confidence that the La Victoria Polymetallic Project is one of discovery merit”, said Eloro Chairman and C.E.O. Mr. Tom Larsen, “and we look forward to commencing our drill program as soon as possible”.

A detailed program of geological mapping, mechanized trenching, and diamond drilling is planned for 2015 on the La Victoria Polymetallic Project once the Declaración de Impacto Ambiental (“DIA”) project environmental permit has been approved by the Peruvian Ministry of the Environment.

About Eloro Resources Ltd.

Eloro is an exploration and mine development company with a portfolio of gold and base-metal properties in northern and western Quebec. Eloro has been granted an option to acquire a 60% interest in La Victoria property, located in the North-Central Mineral Belt of Peru. The La Victoria Property is free of royalties and consists of two adjacent, but not contiguous, properties totalling nine mining concessions encompassing approximately 35 square kilometres. The La Victoria Property is within 50 kilometres of several producing mines, with three producers visible from the property which has good infrastructure with road-access and nearby sources of water and electricity.

For further information please contact Jorge Estepa, Vice-President of Eloro Resources Ltd. at (416) 868-9168, and Mark Appleby, President of Tartisan Resources Corp. at (416) 804-0280.
