

Upco International Inc. (CSE: UPCO) (Frankfurt: U06)

Vancouver, BC, Canada

NEWS RELEASE

Upco International Inc. Announces its Upco App is Available on the Google Play Store and Further Development of Upco e-wallet.

Vancouver, BC, December 8, 2017, Upco International Inc. (CSE: UPCO) (Frankfurt: U06)) ("Upco") is pleased to announce that its Upco application is now available on the Google Play store. Upco's App is similar to SKYPE and WhatsApp, that will enable fully secure communications, and social media, namely connecting users and sharing pictures, locations, international airtime top up, International and national calls and chatting. With the forthcoming addition of the Upco e-wallet using Blockchain Payment Services, users will be able to: send invoices, approve payments, transfer international funds, convert international currencies, and track transfers and payments. The application will also allow vendors to securely share account information with their clients. Upco anticipates that the Upco App will also be available of the Apple App Store in the near future.

Mr Andrea Pagani, CEO and President commented: "This is a great millstone for our company to have our App fully available for download on the Google Play Store. With the recent addition of our Blockchain development team, we will be developing the Upco e-wallet using Blockchain technology."

About Upco International Inc.

Upco International Inc. is a cloud-based mobile service company which provides high-quality voice termination to a market driven by the growing activity in online communications and commerce. Upco is a licensed Global Telecom Carrier within the international VoIP (voice over IP) wholesale business. Upco has designed a software application for IOS and Android, similar to SKYPE and WhatsApp. With the forthcoming addition of the Upco e-wallet using Blockchain Payment Services, users will be able to: send invoices, approve payments, transfer international funds, convert international currencies, and track transfers and payments. The application will also allow vendors to securely share account information with their clients.
