## **Slave Lake Zinc starts 2019 Exploration with Geophysics at O'Connor Lake**

Slave Lake Zinc ("the Company") has recently completed a test ground geophysical survey at the Company's O'Connor Lake zinc-lead-silver project. The property consists of a mining lease located east of Ft. Resolution and the former producing zinc-lead mines at Pine Point, NWT. The surveys, combined with an air photo structural geological interpretation, will allow Slave Lake Zinc to explore for new zones and define extensions to the Company's known mineral occurrences for follow up work and drill testing. As the geophysical work that Slave Lake Zinc has commissioned is the first geophysics to have ever been conducted in the area, all new knowledge of our occurrences is not only very exciting but dramatically enhances our knowledge of our area of interest.

Following completion of the field program representatives of the Company attended a meeting in the community of Ft. Resolution with the FRMC (Fort Resolution Metis Council) to inform Council of exploration to date and continue to receive their input.

The Company has issued an option to purchase 125000 shares of capital stock in the Company at \$0.125 to a business consultant. The stock will have a hold period of 4 months prior to trading.

Slave Lake Zinc will hold an Annual General Meeting April 08, 2019 at 2 pm. To be held at the offices of Suite 704 - 595 Howe Street, Vancouver, BC V6C 2T5

### **About Slave Lake Zinc**

Slave Lake Zinc Corp. intends to develop the potential of its O'Connor Lake property, an historic zinc lead copper property located in the North West Territories of Canada. The property is located south of Great Slave Lake and to the east of Osisko Metals' Pine Point project. The property was initially developed after the Second World War and subsequently abandoned in 1952 when the prices of zinc and lead collapsed post war. Slave Lake Zinc Corp. believes that it is well positioned to advance this project and to expand significantly the historic potential of the property. **Forward Looking Statement**

*Statements in this news release that are forward-looking statements are subject to various risks and uncertainties concerning the specific factors disclosed here and elsewhere in both Slave Lake Zinc's periodic filings with Canadian securities regulators. When used in this news release, words such as "will", "plan", "estimate", "expect", "intend", "potential", "should," and similar expressions, are forward-looking statements. Information provided in this document is necessarily summarized and may not contain all available material information. Forward-looking statements include, without limitation, statements regarding the progress of a definitive offtake agreement, potential development and production at the Company's O'Connor lake project, future oriented events and other statements that are not facts. Forward-looking statements are based on a few assumptions and estimates that, while considered reasonable by management based on the business and markets in which Slave Lake Zinc operates, are inherently subject to significant operational, economic and competitive uncertainties and contingencies. Such forward-looking statements should therefore be construed in light of such factors. Although Slave Lake Zinc has attempted to identify important factors that could cause actual results, performance or achievements to differ materially from those contained in the forward-looking statements, there can be other factors that cause results, performance or achievements not to be as anticipated, estimated or intended. There can be no assurance that such information will prove to be accurate or that management's expectations or estimates of future developments, circumstances or results will materialize. Accordingly, readers should not place undue reliance on forward-looking statements. The forward-looking statements in this news release are made as of the date of this news release, and Slave Lake Zinc disclaims any intention or obligation to update or revise such information, except as required by applicable law, and Slave Lake Zinc does not assume any liability for disclosure relating to any other company herein.*
