

SQUIRE MINING LTD.
QUARTERLY REPORT
for the nine months ended July 31, 2015

MANAGEMENT DISCUSSION AND ANALYSIS

1.1 Date of Report: September 17, 2015

The following management's discussion and analysis should be read together with the financial statements and accompanying notes for the nine months ended July 31, 2015 and related notes hereto, which are prepared in accordance with International Financial Reporting Standards ("IFRS"). All amounts are stated in Canadian dollars unless otherwise indicated.

This management discussion and analysis includes certain statements that may be deemed "forward-looking statements". Although the Company believes the expectations expressed in such forward-looking statements are based on reasonable assumptions, such statements are not guarantees of future performance and actual results or developments may differ materially from those in the forward-looking statements. Factors that could cause actual results to differ materially from those in forward-looking statements include market prices, continued availability of capital and financing and general economic, market or business conditions. Investors are cautioned that any such statements are not guarantees of future performance and actual results or developments may differ materially from those projected in the forward-looking statements.

1.2 Overall Performance

Nature of Business and Overall Performance

The Company was incorporated under the *Business Corporations Act* (British Columbia) on March 23, 2011 under the name "0906251 B.C. Ltd.". The Company changed its name to "Squire Mining Ltd." effective January 13, 2015.

The principal business of the Company is the acquisition, exploration and, if warranted, development of mineral resource properties. Currently, the Company holds an option to acquire up to a 100% undivided interest in the Star Property, an early stage mineral exploration prospect totalling 2,942 hectares located south of Nazko, in the Chilcotin District of central British Columbia approximately 75 kilometres southwest of Quesnel, B.C.

On March 13, 2015, the directors and officers that had paid \$0.005 per share for 5,000,000 common shares during the year ended October 31, 2012, agreed to further capitalize the Company in an additional aggregate amount of \$25,000, pursuant to the requirements of regulatory authorities in connection with the Company obtaining a receipt for its initial public offering ("IPO"). These funds were recorded within the reserve account for accounting purposes.

On March 18, 2015 the Company received a receipt from the BCSC, ASC and OSC for its IPO dated March 17, 2015. As such, the Company became a reporting issuer in British Columbia, Alberta and Ontario. On June 12, 2015 the Company completed its IPO and the Company's common shares were deemed to be listed on the Canadian Securities Exchange ("CSE"). Trading commenced on June 16, 2015.

The IPO was comprised of 3,000,000 common shares at a price of \$0.10 per common share. On June 12, 2015 the Company paid the Agent a cash commission of \$30,000 and issued to the Agent broker warrants to purchase 300,000 common shares at \$0.10 per share until December 12, 2016. The Agent also received a corporate finance fee of \$25,000 (plus GST), of which a non-refundable amount of \$13,125 (inclusive of GST) was paid to the Agent in January 2015.

1.2 Overall Performance - (cont'd)

Nature of Business and Overall Performance - (cont'd)

The Company used a portion of the net proceeds from the IPO, after paying the above noted amounts, to pay for, among other things, the balance of the costs of the IPO, the initial cash property payment and also paid for the initial costs of the recommended Phase 1 work program on the Star Property. The Company intends to use the remainder of the net proceeds from the IPO to fund the remainder of the recommended Phase 1 work program on the Star Property, the estimated general and administrative expenses for the ensuing 12 months, to establish reserves for the recommended Phase 2 work program on the Star Property (if warranted from the results of Phase 1) and unallocated working capital. If, based on the results of the Phase 1 work program, the Company decides not to proceed with Phase 2, the net proceeds from the IPO currently allocated as a reserve for Phase 2 will be reallocated towards the acquisition and exploration of one or more new mineral resource properties and/or for general working capital purposes. There are no assurances that the Company will proceed with Phase 2, which will be contingent upon favorable results from Phase 1.

The Star Property, located in the Cariboo Mining Division of British Columbia, encompasses six mineral tenures totaling 2,942 hectares. Pursuant to the option agreement, the Company holds an option to purchase, subject to a 2% net smelter returns royalty (one half of this royalty may be purchased by the Company at any time prior to the commencement of commercial production for \$500,000), a 100% undivided interest in and to the Star Property for a purchase price of 250,000 common shares of the Company exercisable at any time prior to 12 months from the date of its listing on the CSE ("Listing Date"). If the Company fails to exercise such option, the Company may still acquire a 51% undivided interest in the Star Property by making cash payments totaling \$78,000 and incurring exploration expenditures totaling \$885,000 on the Star Property over a period of four years from the Listing Date. Thereafter, the Company may earn an additional 10% undivided interest in the Star Property (61% in total) by completing, at its sole cost, a pre-feasibility study on the Star Property, and a further 9% interest in and to the Star Property (70% in total) by completing a senior financing required to place the Star Property into production.

The Star Property exploration program consists of two phases. Phase 1 consists of a geochemical soil sampling program of approximately 1,500 samples over a grid of measured east-west oriented line stations totaling 75 line kilometres and a ground based magnetometer survey to investigate the mineral potential of Star Property. The estimated cost of Phase 1 is \$72,050. If warranted by the results of Phase 1, a follow up Phase 2 program consisting of a 30 line kilometre induced polarization geophysical survey and five diamond drill holes totaling 2,000 metres is recommended at an estimated cost of \$440,000.

During the quarter ended July 31, 2015, the Company has been focusing its activities on its Phase 1 work program. The first stage of field work has been completed and we are awaiting the results of that work. The Company's current financial condition is good with working capital of \$421,151 at July 31, 2015.

1.3 Selected Annual Information

N/A

1.4 Results of Operations

The Company has not generated revenue to date and the net loss during the nine months ended July 31, 2015 as compared to the nine months ended July 31, 2014 were significantly different as the Company was actively completing the filing and receipting of its IPO and commencing its exploration program.. Consequently its legal fees (\$50,325) and regulatory filing fees (\$27,431) were significantly higher than the nine months ended July 31, 2014 where there were no costs for these expenses.. Also, as the Company issued share purchase options during the nine months ended July 31, 2015, its share based compensation costs were significantly higher (\$101,250) as there were no share purchase options issued by the Company prior to this period.

The Company’s cash flow was significantly greater during the nine months ended July 31, 2015 than the nine months ended July 31, 2014 due to completing the filing and receipting of its IPO, raising gross proceeds of \$300,000 and incurring costs of \$77,992. Also, on March 13, 2015, the directors and officers that had paid \$0.005 per share for 5,000,000 common shares during the year ended October 31, 2012, agreed to further capitalize the Company in an additional aggregate amount of \$25,000, pursuant to the requirements of regulatory authorities in connection with the Company obtaining a receipt for the IPO. These funds were recorded within the reserve account for accounting purposes. Finally the company incurred exploration and evaluation costs on its Star Property totalling \$30,568.

The Company’s significant project is the Star Property exploration project, detailed in section 1.2.

1.5 Summary of Quarterly Results

The following is a summary of the Company’s financial results for the eight most recently completed quarters (as the Company became a reporting issuer on March 18, 2015, it has only provided information for the quarters ended July 31, 2015, April 30, 2015 and January 31, 2015 (a quarter where financial statements had been prepared previously)) :

						Q3	Q2	Q1
						July 31,	April 30,	Jan. 31,
						2015	2015	2015
Total revenues						\$ -	\$ -	\$ -
Net income (loss) before discontinued operations and extraordinary items:								
Total						\$ (23,372)	\$ (42,523)	\$ (120,750)
Per share						\$ (0.00)	\$ (0.00)	\$ (0.00)
Per share, fully Diluted						\$ (0.00)	\$ (0.00)	\$ (0.00)
Net income (loss)								
Total						\$ (23,372)	\$ (42,523)	\$ (120,750)
Per share						\$ (0.00)	\$ (0.00)	\$ (0.00)
Per share, fully Diluted						\$ (0.00)	\$ (0.00)	\$ (0.00)

1.5 Summary of Quarterly Results – (cont'd)

The Company reported a net loss of \$186,645 during the three months ended July 31, 2015. Administrative expenses for the three months ended July 31, 2015 remained approximately the same as the three months ended January 31, 2015, except for the significant increase in filing fees (increase of \$12,308) and legal fees (increase of \$7,442) due to the filing of the IPO with the BSCS, the ASC and the OSC during the current quarter. Also, as the Company issued share purchase options during the quarter ended January 31, 2015, its share based compensation costs were significantly lower in the three months ended July 31, 2015 as there were no share purchase options issued by the Company during the current quarter.

1.6 Liquidity

The Company has total assets of \$463,040 as at July 31, 2015. The Primary assets of the Company are cash and cash equivalents of \$417,920 and exploration and evaluation assets \$39,215. The Company currently has a total working capital of \$421,151. The Company has adequate liquidity to meet its current plans. Its working capital requirements for the remainder of 2015 will depend on the results from Phase 1 exploration on the Star Property. In any case, it will have adequate funds for the remainder of the year ended October 31, 2015.

1.7 Capital Resources

The capital resources of the Company are primarily its cash and cash equivalents of \$417,920 at July 31, 2015. The Company has committed funds for expenditures on the Star Property during the next twelve months which are expected to be at least \$72,000 and \$6,000 in property payments. The Company plans to carry out the Phase 1 exploration program on the Star Property recommended in the Star Report during 2015 to satisfy such assessment work, failing which the Company will be required to pay \$88,230 cash in lieu of filing assessment work prior to the October 1 or October 3, 2015 expiry dates, as applicable, to renew the mineral tenures comprising the Star Property for an additional one year period. If warranted by the results of Phase 1 and contingent upon available funds, a Phase 2 exploration program will be undertaken provided that if, upon completion of the IP survey, positive geochemical and/or geophysical signatures are not present, the drilling program should be eliminated. The estimated cost of Phase 2 is \$440,000.

The Company has reserved a total of \$150,000 from the IPO to carry out the Phase 2 exploration program. However, if the results from Phase 1 warrant further exploration the Company will not have sufficient funds from the IPO to fund the full cost of the recommended Phase 2 exploration program on the Star Property. In such event, the Company will require an additional \$290,000 to complete the entire Phase 2 program. Furthermore, if the results from Phases 1 and 2 are encouraging the Company will require further capital in order to complete additional exploration and development work on the Star Property. There are no assurances that such additional funding will be available to the Company on commercially reasonable terms or at all.

At July 31, 2015 the Company had no other commitments for expenditures other than the current accounts payables and accrued liabilities totalling \$2,674.

1.8 Off Balance Sheet Arrangements

There is no off-balance sheet arrangements to which the Company is committed.

1.9 Transactions with Related Parties

During the Company's seed capital phase, the Company sold a total of 16,500,000 seed shares to its directors and officers (or companies controlled by such directors and officers) at prices of \$0.005 per Seed Share (as to 5,000,000 shares) and \$0.02 per Seed Share (as to 11,500,000 shares) for an aggregate purchase price of \$255,000. On March 13, 2015, the directors and officers that had paid \$0.005 per share for 5,000,000 common shares, agreed to further capitalize the Company in an additional aggregate amount of \$25,000, pursuant to the requirements of regulatory authorities in connection with the Company obtaining a receipt for the IPO. These funds were recorded within the reserve account for accounting purposes.

On January 13, 2015 and January 19, 2015, the Company granted stock options to its directors and officers to purchase up to a total of 1,125,000 common shares at a price of \$0.12 per Common Share exercisable until March 31, 2020. The Company recorded a fair value of \$101,250 utilizing the Black-Scholes option pricing model during the nine months ended July 31, 2015.

The Company also paid a spouse of a director of the Company \$700 for website cost during the nine months ended July 31, 2015.

Save for granting of incentive stock options from time to time under the Company's stock option plan and reimbursement of reasonable out-of-pocket expenses, the Company does not anticipate paying any compensation to its directors in their capacities as such during the initial 12 month period following completion of the Offering.

1.13 Changes in Accounting Policies including Initial Adoption

New accounting policies that the Company has adopted during the nine months ended July 31, 2015 or expects to adopt are noted below (also disclosed in the annual October 31, 2014 financial statements):

Accounting Standards and Amendments Issued

N/A

Accounting Standards and Amendments Issued but Not Yet Effective

The following new standard and interpretation is not yet effective and has not been applied in preparing these financial statements. The Company is currently evaluating the potential impacts of this new standard; however the Company does not expect it to have a significant effect on the financial statements.

1.13 Changes in Accounting Policies including Initial Adoption – (cont'd)

Accounting Standards and Amendments Issued but Not Yet Effective – (cont'd)

- IFRS 9, *Financial Instruments* (effective January 1, 2018) introduces new requirements for the classification and measurement of financial assets, and will replace IAS 39. IFRS 9 uses a single approach to determine whether a financial asset is measured at amortized cost or fair value, replacing the multiple classification options available in IAS 39.

1.14 Financial Instruments and Other Instruments

The Company's financial instruments consist of cash and cash equivalents, accounts payable, accrued liabilities and due to related parties.

The Company's financial instruments are exposed to the following risks:

Credit Risk

The Company's exposure to credit risk is the risk of illiquidity of cash and cash equivalents amounting to \$417,920 at July 31, 2015. As the Company's policy is to limit cash holdings to instruments issued by major Canadian banks, or investments of equivalent or better quality, the credit risk is considered by management to be negligible.

The Company also has exposure to credit risk with regards to its GST receivable at July 31, 2015 which is due from the Canadian government. The Company closely monitors this risk and believes the risk is not significant.

Liquidity Risk

Liquidity risk is the risk that the Company will not be able to pay financial instrument liabilities as they come due. The Company's only liquidity risk from financial instruments is its need to meet operating accounts payable requirements. The Company has maintained sufficient cash balances to meet these needs at July 31, 2015.

Foreign Exchange Risk

The Company has virtually no foreign exchange risk as all its activities are carried out in Canada and all its financial assets and liabilities are denominated in Canadian dollars.

Interest Rate Risk

The Company has no exposure to interest rate risk on its cash and cash equivalents. At July 31, 2015, the Company maintained all of its cash balance on deposit in a chequing account with a major Canadian bank.

Price Risk

The Company is not exposed to price risk.

The carrying value of cash and cash equivalents, GST receivable and accounts payable, accrued liabilities and due to related parties approximate their fair values due to the short maturity of those instruments. There is no income, expenses, gains or losses associated with the financial instruments.

1.15 Other MD&A Requirements

a) Additional information relating to the Company is on SEDAR at www.sedar.com.

b) Disclosure of Outstanding Share Data

i) Authorized:

Unlimited common shares without par value

ii) Common Shares Issued:

	<u>Number</u>	<u>Amount</u>
Balance, October 31, 2014	18,900,001	\$ 318,001
Seed shares - at \$0.05	252,000	12,600
Initial Public Offering - at \$0.10	3,000,000	300,000
Less: Share Issue Costs	<u>-</u>	<u>(92,992)</u>
Balance, July 31, 2015 and September 17, 2015	<u>22,152,001</u>	<u>\$ 537,609</u>

iii) Share Purchase Warrants:

At July 31, 2015 and September 17, 2015 there were Agents broker warrants to purchase 300,000 common shares at \$0.10 per share until December 12, 2016.

iv) Share Purchase Options:

At July 31, 2015 and September 17, 2015, there were 1,125,000 share purchase options outstanding entitling the holders thereof the right to purchase one common share for each option held, at \$0.12 per share. These options expire on March 31, 2020.
