StateHouse Holdings Announces New Distribution Partnership with Nabis

– Outsourcing distribution enables the Company to reduce costs and focus on optimizing retail and wholesale operations –

SAN DIEGO, CA and TORONTO, ON – October 3, 2022 – StateHouse Holdings Inc. (“StateHouse” or the “Company”) (CSE: STHZ, OTCQX: STHZF), a California-focused, vertically integrated cannabis enterprise, today announced that it has entered into a strategic partnership (the “Partnership”) with Nabis, California’s largest cannabis distributor, under which the Company is outsourcing all of its cannabis distribution.

Under the terms of the Partnership, Nabis has assumed all of StateHouse’s distribution obligations effective today. Nabis has a leading cannabis wholesale platform in California and is the state’s single largest distributor of cannabis. It is the ideal partner to ensure broad and efficient distribution of StateHouse’s products. Given the scale of the Nabis platform, StateHouse expects the Partnership to expand the reach of its brands across the state⁽¹⁾.

The Partnership is expected to create millions of dollars of cost savings⁽¹⁾ for Statehouse. Savings are expected to be achieved through lower headcount and through reduced costs related to insurance, fuel, truck leasing, banking fees and overtime pay.

Outsourcing distribution also enables the Company to put greater focus on optimizing its leading retail and wholesale operations in California to further expand margins and market share.

“We are very pleased to enter this strategic partnership with Nabis, a strong and reliable distribution partner that has extensive reach across California,” said Ed Schmultz, Chief Executive Officer. “The cost reductions and expanded distribution footprint that we anticipate⁽¹⁾ from this partnership will be highly beneficial as we work to build a business that we expect will be EBITDA⁽²⁾ positive next year.”

The Company, through several of its subsidiaries, is directly involved in the manufacture, possession, use, sale, and distribution of cannabis in the recreational and medicinal cannabis marketplace in the United States. Local state laws where the Company operates permit such activities however, investors should note that there are significant legal restrictions and regulations that govern the cannabis industry in the United States. Cannabis remains a Schedule I drug under the United States Controlled Substances Act, making it illegal under federal law in the United States to, among other things, cultivate, distribute or possess cannabis in the United States. Financial transactions involving proceeds generated by, or intended to

promote, cannabis-related business activities in the United States may form the basis for prosecution under applicable United States federal money laundering legislation.

While the approach to enforcement of such laws by the federal government in the United States has trended toward non-enforcement against individuals and businesses that comply with recreational and medicinal cannabis programs in states where such programs are legal, strict compliance with state laws with respect to cannabis will neither absolve the Company of liability under United States federal law, nor will it provide a defense to any federal proceeding which may be brought against the Company. The enforcement of federal laws in the United States is a significant risk to the business of the Company and any proceedings brought against the Company thereunder may adversely affect the Company's operations and financial performance.
